Farel Reyhananda Nugraha

Full Stack Web Developer

farel.reyhananda@gmail.com | www.linkedin.com/in/farel-reyhananda | farel14.github.io
Jakarta, Indonesia

Passionate Full Stack Engineer with 3+ years of experience building responsive, user-focused internal and user web applications. Skilled in React, Vue.js, Django (Python), and JavaScript frameworks with a strong eye for UI performance and component design. Experienced in full-stack collaboration and optimizing frontend integration with RESTful APIs.

Work Experiences

Tenaga Ahli
LEMIGAS | *Sep 2025 – Aug 2026*

- Compiling the availability of well and seismic data with the help of Python automation
- Interactive well correlation charts using Excel and Visual Basics
- GIS workflow optimization through a Python tool that identifies missing files, cutting import time from 2 hours to 5 minutes
- Vintage log digitation (Neuralog) and Seismic interpretation (Petrel)

Fullstack Engineer
JULO | *Aug 2023 - Nov 2024*

- Developed internal CRM and external webview sites using Django, JS and Vue.js
- Built responsive communication templates (email, SMS, push notification) for customer payment reminders.
- Improved web view–mobile communication for a consistent cross-platform experience
- Automated scheduling and data population for smoother workflows.
- Optimized backend APIs query time for faster data delivery and improved agent productivity, integrated third-party APIs and callbacks

Backend Engineer
Finku | *Aug 2021 - May 2023*

- Developed and integrated RESTful APIs with NestJS and MongoDB for features like gamification, homepage, and loan services
- Web scraping and data automation to support business needs using puppeteer js
- Implemented backend utilities such as cron jobs and encryption to improve performance and data security
- Built internal web applications using Vue.js and Ant Design for monitoring and dynamic feature improvement

Educations

Hacktiv8 Full Stack Javascript Immersive Apr 2021 - Jul 2021
Full Stack Javascript

Institut Teknologi Sepuluh Nopember Aug 2014 - Aug 2019
Bachelor's Degree | Geophysical Engineering

Skills

Frontend: React, React Native, Next.js, Vue.js, JavaScript, TypeScript, HTML, CSS, Tailwind
Backend: Node.js, TypeScript, Python, Go, Express, NestJS, Django, REST API integration, Puppeteer JS (Web scraping), Beautiful Soup Python
Database & Tools: MongoDB, PostgreSQL, Redis, Git, GitHub, Vercel
Language / 語学能力: English (Fluent), Bahasa Indonesia (Native), Japanese (Basic)

Projects

Pokedex
https://pokeapp-gules.vercel.app/
Tools: • TypeScript • React • Next.js • Tailwind • Vercel

Yu-Gi-Oh! Wiki and Deck Builder App
https://kodok-sarjana.web.app/
Tools: • JavaScript • Sequelize • Yugioh API • Vue.js • PostgreSQL • Vuex • Bootstrap

Sudoku App for Mobile
https://github.com/farel14/sugoku/tree/03-final
Tools: • JavaScript • PostgreSQL • React Native • Bootstrap • Redux • React Navigation

Movie and TV Series App
https://github.com/farel14/entertainme/tree/06-deploy
Tools: • JavaScript • Redis • Tailwind • MongoDB • React • AWS • Apollo GraphQL

Pelit Money Tracking App for Mobile
https://github.com/farel14/pelit-client | https://github.com/farel14/pelit-server
Tools: • JavaScript • React Native • Tesseract OCR • Supertest • PostgreSQL • Redux

Travel App (Jalan-Jalan Ngab!)
https://github.com/farel14/jalan-jalan-ngab
Tools: • JavaScript • Socket.io • Bootstrap • Express.js • PostgreSQL • jQuery • Sequelize

Quiz Score Counter Bot for Discord
https://github.com/farel14/discord-quizbot
Tools: • Discord.py • JSON • python-dotenv
